If the face-masks are used otherwise despite instructions from the manufacturer, then it is the own responsibility of the user.
- It must be washed before wearing it for the first time.
- It must only be worn over mouth and nose.
- The mask must be changed when its soaked
- Used or contaminated masks must be washed immediately
- The hands must be washed thoroughly with soap before and after touching or removing the mask.

INSTRUCTIONS FOR USE

1) Preparation

- Wash your hands
- Long hair must be tied together
- The beard has to be trimmed, so it cannot be seen when wearing the mask

2) Putting on the mask

- Only touch the mask on the cord
- Hold the mask with the opening for the filter outwards in front of the face. The loop should be at the top and the open cords should hang downwards.
- Put the mask over mouth and nose and pull the loop over the head behind the ears.
- Put the two open cords back into the neck and tie them together
- Correct the mask in front of the mirror with thumb and index finger. Nose and chin should be covered
- Put on the glasses only after the mask

3) Wearing

- Do not touch the mask with the hands
- Do not remove the mask from nose or mouth in between times and put it back in front of the face. A new mask must be out on.

4) Removing and Washing

- Never touch the mask with your hands, but remove the knot and pull the cords simultaneously to the front with your hands
- Hold your breath when removing the mask, because there may be viruses on the surface of the mask
- After wearing put the mask in a covered laundry basket, which should be only for the masks
